 770-237-5992

**\*\* Walking distance to Georgia Gwinnett College**

**THE CHARITY**

An estimated 1.5 million Americans have Parkinson's disease. Parkinson's is a slowly progressive brain disorder resulting in the loss of dopamine production. Dopamine is the neuro-transmitter responsible for aiding in body movements. Symptoms include slowness of movement, tremor, muscle stiffness, and postural instability. To date there is no cure. The proceeds from the Cycle For Parkinsons Weekend are used to raise awareness and funds for research and other activities necessary in helping to find a cure.
